

## PUBLIC NOTICE

Pursuant to 42 C.F.R. § 447.205, the Georgia Department of Community Health is required to give public notice of any significant proposed change in its methods and standards for setting payment rates for services.

### PHYSICIAN UPPER PAYMENT LIMIT (UPL)

Pending Centers for Medicare and Medicaid Services' (CMS) approval and effective for services provided on or after October 1, 2021, the Department proposes to remove the provision which prohibits a physician from receiving supplemental payments through the Fee-for-Service Physician Upper Payment Limit (UPL) program and the enhanced primary care reimbursement rates simultaneously.

This change is estimated to increase supplemental payments by:

	State Cost	Federal Cost	Total Cost
SFY2022	\$21,374,572	\$43,593,733	\$64,968,305

Per the provisions of the Affordable Care Act (ACA), physicians with a primary specialty designation of family medicine, pediatric medicine, general internal medicine, or an associated subspecialty, who attested per the Department's policy, received enhanced reimbursement rates for certain Current Procedural Terminology (CPT) codes. This enhanced reimbursement provided under the Affordable Care Act ended in December 2014.

Beginning July 1, 2015, the Department, through a state plan amendment, carried the enhanced primary care rate increases forward and continued to reimburse eligible physicians at the higher rates. Per the provisions of the state plan amendment, primary care physicians who received supplemental payments through the Physician Upper Payment Limit (UPL) Program *were prohibited* from receiving the enhanced primary care provider rate increases.

Accordingly, the Department is seeking approval to remove the provision which *prohibits* a physician from receiving supplemental payments through the Physician Upper Payment Limit (UPL) program and the enhanced primary care reimbursement rates simultaneously. Removal of this provision will allow eligible physicians to participate in and receive both the UPL supplemental payment and the enhanced primary care rate increase beginning October 1, 2021.
