WELFARE REFORM IN GEORGIA: 2011 – 2021

Senate Bill 104

The enabling legislation for the Temporary Assistance for Needy Families (TANF) program in Georgia is Senate Bill 104, now known as Act 389. The major provisions are:

- Most recipients are limited to 48 months of TANF assistance.
- All adult TANF recipients and all eligible parents are required to participate in approved work activities.
- All adult TANF recipients are required to sign a personal responsibility plan that emphasizes personal responsibilities to better their lives.

Some of the required actions include:

- ensuring that minor children attend school
 - attending school conferences
 - attending family planning counseling
 - participating in substance abuse treatment, if needed
 - having children immunized, and
 - obtain prenatal care, if needed
- Teen parents are required to continue to live with a parent or responsible relative and must remain in school to obtain their GED or high school diploma.
 - Family cap measures were strengthened, so that TANF cash assistance does not increase for recipients who give birth to an additional child after receiving TANF for ten months.
 - Families who do not meet work or personal responsibility requirements could be sanctioned, with a reduction in or termination of benefits for three (3) months or 12 months, depending on the number of infractions.

The Personal Responsibility and Work Opportunity Reconciliation Act

In August 1996, the Personal Responsibility and Work Opportunity Reconciliation Act (PRWORA) was enacted. PRWORA eliminated the Aid to Families with Dependent Children (AFDC) cash entitlement program and replaced it with the TANF block grant. PRWORA effectively ended welfare entitlement, replacing the AFDC program with the time limited TANF program. The four purposes of TANF are:

- Provide assistance to needy families so that children may be cared for in their own homes.

- Reduce welfare dependency by promoting job preparation, work, and marriage.
- Prevent teen pregnancies.
- Encourage the formation and maintenance of two-parent families.

PRWORA established mandatory work participation rates and enacted time limits on the receipt of TANF benefits. Moreover, PRWORA afforded states greater flexibility in the design and implementation of the TANF program and provided each state a block grant to fund its program. State Maintenance of Effort (MOE) spending levels were mandated so that states would maintain levels of spending consistent with previous spending for AFDC.

In the fall of 1996, Georgia submitted a state plan for administering the TANF program. Following a 45-day federal review period and a series of public hearings, the plan was accepted by the U.S. Department of Health and Human Services (HHS) and Georgia was approved to receive the TANF block grant. The first TANF checks were issued on January 1, 1997.

In past years, the most important aspect of the case manager's job was issuing welfare benefits. With the 1996 introduction of Work First, the emphasis shifted to helping case managers assist TANF recipients in maintaining employment, as well as seeking career advancement. Customers are expected to find employment, keep the job, and seek career advancement. The goal is family self-sufficiency, limiting the need for public assistance. As a result, TANF caseloads greatly declined.

Georgia made the necessary changes to be compliant with the Final Rule. The most significant change was new internal control guidelines, requiring major system changes.

The Growth of TANF in Georgia

October 2004: Georgia initiated a new service delivery strategy for TANF called TANF = WORK NOW. This strategy focused on 3 elements:

- Education - TANF participants were educated at the point of application on all the goals and requirements of the TANF program.
- Engagement - TANF participants with a work requirement were engaged in work activities within seven (7) days of the approval of their application.
- Monitoring - TANF participants were monitored consistently and frequently to ensure adherence to program requirements.

This concept yielded a significant decrease in the number of total TANF cases, particularly the number of adult mandatory cases.

April 2006: Georgia took TANF = WORK NOW a step further by focusing on values and beliefs that would assist in strengthening Georgia's families. New policies were implemented, and case managers were trained on the principles of case management. The values and beliefs that we espouse are:

- Welfare is not good enough for any family.
- Government cannot and should not take the place of family.
- Children are better off when responsible caretakers can provide for their families.
- There is dignity in work, whether with the hand or the head.
- Georgia urges responsible adult behavior and economic self-sufficiency to end dependency on government assistance.
- With proper preparation, support, and supervision, we can help our customers create a more secure employment future for themselves.

October 2006: Georgia recognized the need for additional transitional supports to assist participants with job retention and career advancement, thereby, launching the Work Support Program.

February 2008: Final Rule for the Reauthorization of TANF was released by the Administration for Children and Families (ACF) / HHS. This rule was based on changes required by the Deficit Reduction Act (DRA) of 2005. According to the DRA final document (45 CFR, Parts 261, 262, 263, and 265. pg. 6772), "The DRA reauthorized the TANF program through federal fiscal year (FFY) 2010 with a renewed focus on work, program integrity, and strengthening families through healthy marriage promotion and responsible fatherhood."

The DRA retained most of the original welfare reform law. The key changes in the Final Rule were: (1) defined each of the 12 countable work activities, (2) defined the term "work eligible individual," (3) clarified that a State may count only actual hours of participation, (4) recalibrated the caseload reduction credit by updating the base year from FFY 1995 to FFY 2005, (5) required each State to establish and maintain work participation verification procedures through a Work Verification Plan, (6) established a new penalty for failure to comply with work verification procedures, and (7) allows additional pro-family expenditures to count toward a State's MOE requirement.

October 2010: The agency rolled out a new business process, Georgia Re-engineering Our Work (G.R.O.W.). The G.R.O.W. process established three functions that case managers focus on (1) interviewing applicants, (2) processing applications, and (3) finalizing applications. An applicant in North Georgia applying for benefits could be interviewed by a case manager in Middle Georgia. The application could then be transmitted to a case manager in West Georgia for processing and transmitted to another location for finalization or approval. After approval, the case was transferred back to the county where the applicant resided. The G.R.O.W. process symbolized the concept of doing more with less.

October 2011: The Georgia Department of Human Services (DHS) added a new process, Document Imaging System (DIS). The DIS gave public assistance customers the option to scan in documents from a home computer scanner, a scanning station in a public community center, such as the Community Action Agencies/Authorities (CAA's), certain child support offices, or local Georgia Division of Family and Children's Services (DFCS) offices. Customers who were employed and unable to report to a local DFCS office could renew their benefits online and scan the required supporting documents to an image repository where the case manager or other staff could access the documents.

October 2012: DFCS revisited the G.R.O.W. process to reevaluate its effectiveness. During the evaluation, it became evident that the work could not change, but the way the work was done could. Business Operations Planning (B.O.P.) was added. B.O.P. is: (1) the standardization of G.R.O.W. within each Region. All Regions would use the same procedures to complete a case from start to finish. (2) Self-service was the standardized lobby resource, (3) Document Imaging (DIS), (4) Telecommunications – Local Office call center model, and (5) Office of Financial Independence (OFI) Data Tool – Standardized data management. OFI Teams were formed to ensure standardization. The OFI Teams consisted of: (1) Customer Support, (2) Business Support, and (3) Eligibility Specialists. Our customer support staff supported all walk-in work and was the face of DFCS. The business support staff scanned mail to DIS, answered general inquiries, registered, and initiated cases. The eligibility specialists keyed cases, interviewed applicants, finalized cases, and handled case maintenance. With these measures in place, we were striving to provide our customers with a timely and efficient outcome.

2013: To improve the overall service of the public assistance programs, Georgia focused on improving the process to provide convenient access, service accountability, and improve the customer experience. Georgia One was a combination of technology (DIS and COMPASS) and incorporated self-service options that allowed DFCS to provide Supplemental Nutritional Assistance Program (SNAP), TANF, Childcare and Parent Services (CAPS), and Medicaid recipients the opportunity to track and manage their case. This change helped us serve our customers more efficiently and effectively.

March 2015: To find the best way to serve its people, the State reached out to all public assistance programs to map current processes. Georgia began to find more effective ways to help provide eligibility services and improve customer service. Georgia Gateway, an integrated eligibility system, began to form. It would allow interested parties to research information about available public assistance programs online. Future enhancements will include online application and eligibility criteria for other participating public assistance programs such as SNAP, CAPS, Medicaid, Women, Infants, Children (WIC), and PeachCare for Kids (PCK). Georgia Gateway is being implemented concurrently with a new business model known as "One Caseworker, One Family", which streamlines the case management process by assigning one caseworker from application to completion.

February 2017: Georgia Gateway, the multi-agency integrated eligibility system, debuted in Henry County. A phased rollout across the state culminated with Fulton and Dekalb counties joining in September 2017.

October 2018: Standardized Employment Services contracts, developed jointly by the state office and district staff, were put in place to simplify the delivery and monitoring of referred applicants and the activities of work-eligible individuals. Additional vendors were developed, along with a standardized invoicing system.

2020: The COVID-19 pandemic created the need to modernize TANF policies and procedures in 2020. Effective March 2020, mandatory work requirements were waived. However, those who were able and wished to continue their work activities remained supported. Also, eligibility verification requirements were lessened to remove potential hardships to those who were sheltering in place. For example, forms were mailed, but a signed copy was no longer required to be returned. Effective June 1, 2020 Temporary Assistance for Needy Families (TANF) became available via Georgia Gateway as an online application tool. Anyone may apply online Monday-Friday 5:00 am – midnight (excluding weekends and holidays).

Work Activities and Sanction Suspension: Since work requirements were temporarily waived, all outstanding work sanctions were lifted effective April 2020. Failure to participate will not result in adverse action until work requirements resume as mandatory.

Extending Certification Periods on Renewals: Reviews were also extended to assist families during the COVID pandemic. Families received a six-month extension on their annual renewal deadlines. For example, renewals that were due in March (pre-COVID-19) were extended to September.

2021: COVID-19 procedures for the TANF program that began in SFY 2020 remained in place during SFY 2021. This included temporarily waived work requirements, a reduction in the forms requiring client signature (to reduce the need for hard paperwork circulation) and extended renewal periods.

In SFY21, work-eligible individuals were encouraged to participate in work activities and support services continued to be paid. Many individuals benefited by choosing job search as a supported activity. Those participants who found full-time employment qualified for work support payments of \$200 per month for up to 12 months, as well as continued support services. State law requires a TANF lifetime limit of 48 months, however, Georgia granted good cause extensions to ensure that families' assistance remained in place when they needed it the most.

TANF policy was also adapted to mirror the evolving policies for SNAP and Medicaid. Having similar policies between programs streamlines eligibility practices for staff and reduces the need to provide non-essential verification, saving time and energy for our families requesting assistance.

TANF Adult CASELOADS

SFY 2011 thru SFY 2021

TANF Adult Caseloads

As we continue our mission to help TANF recipients attain self-sufficiency, our adult TANF caseload is decreasing. The TANF Adult Caseload has dropped from 3,442 in 2011 to 1,250 in 2021. The decrease is 2,192 cases within a 10-year period.

Collaborative Efforts

To assist Georgia's TANF recipients fulfill the requirements of Act 389 and attain self-sufficiency, it was necessary that we collaborate with other public service agencies and entities. To start, we formed partnerships with Georgia Department of Labor (GDOL) and the Technical College System of Georgia (TCSG) to develop a job-ready workforce. Each agency committed to providing specific services to TANF recipients, while DHS provided case management and support services. TCSG was the primary source for job training and GDOL focused on job development and placement.

The services provided through these partnerships have contributed greatly to the families receiving TANF. The recipients utilized the job training, job development and job placement resources from our partners to gain or refresh their skills; thus, becoming more marketable. The services also helped some find better jobs and leave the TANF program.

TANF CASELOADS

SFY 2011 thru SFY 2021

In SFY 2011, Georgia had 19,988 TANF cases. The current total number of TANF cases in Georgia for SFY 2021 is 11,841. Georgia has reduced its caseload by approximately 50% in ten years.

Transportation

Transportation expenditures greatly increased with the implementation of TANF and subsequently decreased as the number of TANF cases declined. DFCS provides direct payments or public transportation cards to applicants, recipients, and those receiving transitional support. Beginning SFY 2000, DFCS collaborated with the Georgia Office of Facilities and Support Services to expand the Consolidated Transportation System. TANF funds invested in this initiative have increased from \$345,000 in SFY 2000 to \$3,200,000 in SFY 2018. Transportation services through DHS' Consolidated Transportation System ended in 2019 with a reduction in TANF cases. In SFY 2021, TANF funds paid directly to applicants and recipients totaled \$12,218.67.

Employment Intervention Services (EIS)

EIS is available to TANF applicants who have full time employment but is temporarily on unpaid leave due to a temporary illness and is scheduled to return to work within four (4) months, and the AU meets the gross income ceiling (GIC) test.

Work Support Payments

In addition to partnerships with other agencies, the availability of work support payments is critical to the success of TANF self-sufficiency efforts. To secure and maintain employment, many families require assistance with transportation, childcare, and medical expenses as well as assistance in obtaining child support.

WSP and Transitional Support Services (TSS) will be provided for applicants and participants who find employment and become ineligible for ongoing TANF or those who choose to close their TANF case once the benefit is reduced. Both services will be provided for up to twelve (12) months.

TANF Subsidies

Entitlement Code 98: Work Support Payments \$200

Number of Clients

State Fiscal Years 2012 - 2021

Comparison of Cash Assistance and Childcare Expenditures in Millions of Dollars SFY 2011 thru SFY 2021

Number of Children in Childcare (Based on payments processed) State Fiscal Year 2012 – 2021

Childcare

Affordable, quality childcare is essential to the success of individuals obtaining and maintaining employment. The average number of children in childcare from month to month decreased from 78,289 children in SFY 2010 to 33,087 in SFY 2019. In addition, expenditures in the program decreased from \$212M in SFY 2010 to \$142M in SFY 2021. Childcare assistance is administered by Georgia Department of Early Care and Learning.

Medicaid

Many TANF recipients beginning first-time employment were either unable to afford the medical insurance made available to them by their employers or found that few employers offered the option of medical insurance. The combination of Low-Income Medicaid (LIM), Transitional Medical Assistance (TMA), and Right from the Start Medicaid (RSM) or PeachCare for Kids (PCK) provided and continues to provide this necessary coverage. The 12-month continuation of Medicaid in the form of TMA provides necessary medical coverage for families who become ineligible for LIM because of new or increased earned income. Once TMA ends, the children of most families are eligible for additional coverage through RSM or PCK. As of June of 2021, 1,121,708 Georgia families received Medical Assistance.

Increasing Success in Collecting Child Support

(Collections in Millions)

Child Support

Insufficient child support prevents many single parents from attaining economic self-sufficiency. Increased collections by the Division of Child Support Services (DCSS) program are helping families receive more of the child support owed to them. There was a drop in the amount of child support collected from SFY 2007 (\$651M) to SFY 2008 (\$566M). The collections rebounded in SFY 2009 (\$595M), in 2010 (\$600M), in 2011 (\$708M) and then slightly decreased in 2012 to (\$692M) and again in 2013 (\$682M). Child Support collections rebounded in 2014 to (\$703M), in 2015 to (\$721M), 2016 (\$737M), and 2017 (\$744M). Collections took a slight dip in SFY 2018 to (\$741M). In SFY 2019, there was a 37.1% decrease in collections. The total collected in SFY 2019 was \$466M. The total collected in SFY 2021 was \$780M.

An additional support service provided by DCSS is the Georgia Fatherhood Program, a statewide outreach program designed to increase the collection of child support from non-custodial parents with education and employment barriers. Job training is provided to assist non-custodial parents in securing employment that will enable them to pay child support and provide for their children.

Collaborative Work Supports

The future of welfare reform in Georgia includes a continuing focus on moving families to economic independence, through stable employment. Most recipients who remain on TANF fall into three main categories. The largest population is comprised of children who receive TANF in “child-only” cases, which a non-parent relative caring for the children and is not included in the TANF grant. These families are not subject to time limits or work requirements. The second category consists of recipients who are enrolled in an activity and participating at the required federally, mandated level for adults receiving TANF for themselves and their children. The third and most challenging category consists of recipients who are dealing with multiple barriers to self-sufficiency. Some of these barriers include substance abuse, illiteracy, disabilities, and domestic violence issues. The following initiatives continue to assist these recipients in attaining self-sufficiency:

- The Georgia Department of Behavioral Health & Developmental Disabilities (DBHDD) and Addictive Diseases provide substance abuse counseling and treatment through outpatient and residential facilities. Treatment for clients who have been diagnosed with mental impairment and mental retardation is also provided.
- The Georgia Vocational Rehabilitation Agency (GVRA) provides disability assessments for recipients who allege a disability that impedes their ability to work. GVRA also places recipients in appropriate programs based on assessment outcomes and makes recommendations that assist DFCS in planning services to help recipients overcome barriers to employment.
- The TCSG provides expanded adult literacy services and vocational classes.

- Domestic violence issues have been emphasized through various measures. Local shelters provide assessments for individuals claiming domestic violence as a barrier to becoming self-sufficient. Waivers from certain program requirements may be granted based on assessment outcomes. Training is provided for DFCS staff. Brochures and posters are distributed throughout local areas to increase awareness of available services.
- In FY2018, Georgia partnered with the City of Atlanta and U.S. Department of Housing and Urban Development (HUD) to form the TANF Rapid Rehousing Program. Using a braided funding model, this partnership rapidly rehoused 100 homeless families living in location unsuitable for human habitation. Supportive services, including childcare navigation, employment assistance, and housing resources were provided. In FY2019 and ongoing, funds were added to house up to 150 TANF eligible families annually.

Lifetime Limits

In Georgia, the receipt of TANF is limited to 48 months in a lifetime for an assistance unit. Beginning in January 1997, each month of TANF receipt counts toward the 48-month lifetime limit. The federal lifetime limit is 60 months. An assistance unit that is subject to the lifetime limit may have the limit waived if it is determined that the assistance unit meets certain hardship criteria. TANF months received by a recipient from another State is subject to be counted in the lifetime time limits.

Hardship waivers

Some families will require additional time to prepare for work and some may never be fully self-sufficient. For these families, Georgia has established a hardship waiver policy that is approved on a case-by-case basis. The waiver of the lifetime limit allows for temporary extensions of TANF to families experiencing additional barriers.

The hardship waiver policy was revised in April 2006. There are three hardship criteria for case managers to use to evaluate each family's situation.

1. The AU meets the domestic violence criteria.
2. The AU has an active child protective services case and the circumstances necessitating the CPS case create a barrier to the AU's attainment of self-sufficiency.
3. The disability of the grantee relative, other eligible adult or a household member is a barrier to employment for the grantee relative or other eligible adults.

Other forms of support like Food Stamps, Medical Assistance, shelter and utility assistance, are available to families that do not meet any of the hardship criteria.

Georgia's TANF caseload totaled 50,996 cases in December 2000 when the first 1,446 families reached the 48-month time limit. Of those families, 1,094 met a hardship criterion and were eligible for extended TANF benefits through hardship waivers. Since December 2000, the number of families reaching the 48-month time limit has consistently decreased.

In December 2005, another milestone in the TANF program was reached. There were 311 Georgia TANF recipients that reached the federally imposed 60-month TANF lifetime limit. Of the 311 recipients, 280 continued to be eligible under a hardship extension. As with the 48-month time limit, the number of families reaching the 60-month federal lifetime limit has decreased. In June 2002, there were 1,566 families receiving a hardship extension, but in June 2005 there were only 230 families receiving extensions. In June of 2006, 49 families received an extension, and in June 2009, Georgia had only 18 families who received a hardship extension. In June 2010, there were only two households that received a hardship extension. In 2012, there was one household receiving a hardship extension. In 2013, there were no households receiving a hardship extension. As of 2021, there were 27 households receiving a hardship extension.

**TANF Hardship Extensions
June of the Year from 2011 to 2021**

Teen Pregnancy Prevention

Reporting on Fiscal Year 2021 Program Goals

Deliverable 1: *Implementation of Evidence-based Curricula to reduce risk of pregnancy and HIV/STIs contraction.* Public health districts exceeded the stipulated annual goal of reaching 840 youth by reaching a total of 1,799.

Deliverable 2: *Providing youth development opportunities to cover adolescent health topics and skill sets.* Despite the effect of the pandemic, a total of 82 youth development opportunities were implemented during the fiscal year, exceeding the annual goal of 60.

Deliverable 3: *Instituting public awareness events about adolescent health-related issues.*

A total of 178 events were implemented throughout the public health districts involving 25,000 youth and exceeding the annual goal of 120 events.

***Deliverable 4:** Providing training opportunities for youth-serving professionals, parents, community members or youth.* AHYD exceeded the annual goal of reaching 600 participants to provide youth-serving professional trainings. Participants included 179 community members, 108 parents, 212 professionals and 375 youth.

IV. Evaluation of Program Activities

During Fiscal Year 2021, the following program deliverables were evaluated to assess the impact of program activities:

- ***Deliverable 1:** Implementation of Evidence-based Curricula to reduce risk of pregnancy and HIV/STIs contraction*
- ***Deliverable 3:** Instituting public awareness events about adolescent health-related issues*

Evaluation of the Implementation of Evidence-based Curricula

Demographics of program participants: Youth participating in evidence-based curriculum implementation had an average age of 14 years old. The race, ethnicity, and gender of participants is shown in Table 2 below.

Table 2. Demographics of Participants in Evidence-Based Curriculum Implementation (N=1,799)

Health District	# of Particip ants	Race							Ethnicity			Gender		
		Black	White	Asian	AI/AN	NH/PI	Other	Missing	Hispanic	Non-Hispanic	Missing	Male	Female	Missing
Rome (District 1-1)	258	88	102	7	0	0	12	49	49	209	0	127	131	0
Gainesville (District 2-0)	68	2	6	0	0	0	10	50	2	6	60	9	24	35
Cobb and Douglas (District 3-1)	102	63	27	0	0	2	10	0	7	95	0	48	54	0
Fulton (District 3-2)	154	36	0	0	0	0	2	116	25	13	116	21	23	110
Clayton (District 3-3)	37	32	5	0	0	0	0	0	5	11	21	25	11	1
Gwinnett, Newton & Rockdale (District 3-4)	843	129	18	0	0	0	18	678	661	34	148	432	411	0

(District 7-0)

South-Valdosta (District 8-1)	49	25	7	0	0	0	0	17	0	21	28	10	39	0
Coastal- Savannah (District 9-1)	29	11	16	0	0	0	0	2	8	21	0	13	16	0
TOTAL	1,799	474	199	7	0	4	52	1,063	767	442	590	863	775	161

Participants' knowledge related to pregnancy and sexually transmitted diseases: An average of 99.37 participants answered knowledge questions correctly pre-intervention, compared to an average of 139.42 post-intervention. This indicates a significant increase in knowledge pre- and post- intervention using t-test paired two sample means ($p < 0.002$). In comparing knowledge gain among genders, both males and females showed significant increases in knowledge post-intervention ($p < 0.001$ and $p < 0.01$, respectively). Additionally, the cumulative mean score showed a significant increase in knowledge of 2.09 points ($p = 0.001$) after participating in the evidence-based curriculum.

Participant's confidence in maintaining healthy behaviors in relationships: Participants showed a statistically significant increase ($t = 3.23$, $p < 0.05$) in their agreement with their confidence in maintaining health behaviors measured pre- and post-intervention.

	Topic of Public Awareness Event				
	Effects of Drugs and Alcohol on the Body (N=1,444)	Teen Pregnancy Prevention & STD/HIV Prevention (N=143)	Maintaining Personal Hygiene during Puberty (N=149)	Strategies of Preventing Bullying (N=963)	Avoiding Teen Dating Violence through Healthy Relationships (N=790)
Percent of participants that increased knowledge/ awareness	88%	82%	92%	93%	88%
Percent of participants that indicated satisfaction with implementation	77%	78%	84%	75%	77%
Percent of participants that will participate in future events	59%	61%	74%	63%	65%
Percent of participants that would recommend to others	68%	72%	76%	69%	72%
Percent of participants that showed an increase in community engagement/acceptance of AHYD issues	81%	80%	85%	87%	82%

Participants' report of change in risky behaviors 3 months post-intervention: The evaluation showed a decrease in the percent of participants engaged in risky behaviors at 3 months post intervention. Participants who avoided sexual intercourse 3 months after participating in the program indicated the factors that most frequently contributed to their decision were parents, family members, other adults, friends and participation in the evidence-based curriculum. In terms of social factors, participants indicated that fear of pregnancy mostly influenced the decision to abstain from sexual intercourse within 3 months after participating in the program.

Evaluation of Public Awareness Events

Table 3 below shows the increase in selected outcomes by those who participated in public awareness events.

Table 3. Selected Outcomes by Participants in Public Awareness Events

	Topic of Public Awareness Event				
	Effects of Drugs and Alcohol on the Body (N=1,444)	Teen Pregnancy Prevention & STD/HIV Prevention (N=143)	Maintaining Personal Hygiene during Puberty (N=149)	Strategies of Preventing Bullying (N=963)	Avoiding Teen Dating Violence through Healthy Relationships (N=790)
Percent of participants that increased knowledge/ awareness	88%	82%	92%	93%	88%
Percent of participants that indicated satisfaction with implementation	77%	78%	84%	75%	77%
Percent of participants that will participate in future events	59%	61%	74%	63%	65%
Percent of participants that would recommend to others	68%	72%	76%	69%	72%
Percent of participants that showed an increase in community engagement/acceptance of AHYD issues	81%	80%	85%	87%	82%

VI. Conclusion

Georgia Department of Public Health AHYD program continues to use a comprehensive approach to address AHYD health-related issues and actively tries to create supportive networks that encourage Georgia youth to adopt healthy lifestyles, reduce the incidence of teen pregnancy & HIV/STI contraction, and improve school performance and graduation rates. Based on past evidence, these efforts should increase chances of securing employment and ultimately help in increasing the rate of healthy, productive adolescents in Georgia.

VII. Opportunity for Growth

With these long-term goals in mind, and with the success of the AHYD program thus far, the AHYD program proposes expanding its programming to reach a larger population. Additional funding of \$255,000 would allow the AHYD program to add three additional Public Health Districts with high rates of teen pregnancy. In the years 2000-2020, the Southeast (Waycross) Health District, the South (Dublin) Health District, and the East Central (Augusta) Health Districts had 34.2, 31.7, and 31.3 per 100,000 youth, respectively. Given the opportunity for expansion and adequate funding, the AHYD program is confident these rates can be reduced.

For more information about Adolescent Health and Youth Development Unit Programs, please contact DPH at 404-657-6638 or visit <http://health.state.ga.us/programs/adolescents/>

DFCS Afterschool Care Program

The Afterschool Care Program is located within the Georgia Division of Family and Children Services (DFCS) and provides federal funding to non-profit organizations and public agencies who serve youth and families during the out-of-school time. It is designed to support DFCS' goal of providing resources and services that promote self-sufficiency among children and families. By funding services that are provided during before school, after school, intercession and summer hours, the Afterschool Care Program also supports two Temporary Assistance for Needy Families (TANF) goals:

- (a) Reduce the dependency of needy parents by promoting job preparation, work and marriage.
- (b) Prevent and reduce unplanned pregnancies among single young adults.

The mission of the Afterschool Care Program is to provide resources to youth-serving organizations within the state of Georgia who serve families within low-to-moderate income communities and the foster care system. The vision of the Afterschool Care Program is to ensure every child and youth has access to high quality youth development programming within their community. Educational attainment, positive youth development and an enhanced well-being are key factors in preventing future welfare dependency among today's youth, particularly youth of economically disadvantaged communities. Through out-of-school time programs, parents and caregivers can ensure their youth have a safe and enriching environment when the traditional school day ends. By providing funding through a Statement of Need (SoN) solicitation process, the Afterschool Care Program partners with community-based organizations and public agencies throughout the state of Georgia who provide services to youth and their families. The goals of the DFCS Afterschool Care Program are to:

- Strengthen youth-serving organizations and institutions by providing funding that increases their capacity to design, implement, and sustain quality youth development programs and services;
- Provide opportunities for youth to establish positive relationships with their peers and caring adults during traditional non-school day hours; and
- Provide technical assistance to organizations and agencies as they implement services and activities that support their youth's overall well-being as they prepare for and transition into young adulthood.

Positive Youth Development Services

Agencies that are funded through the DFCS Afterschool Care Program provide project-based learning activities and/or youth apprenticeship experiences to youth

participants that support school day learning and encourage positive transitions into adulthood. Starting in Federal Fiscal Year (FFY) 2016 and going through the conclusion of Federal Fiscal Year (FFY) 2021, funded agencies implemented STEAM (Science, Technology, Engineering, Arts and Math) based learning opportunities. Through project-based learning activities and apprenticeship-based experiences, youth had the opportunity to learn about 21st century career and educational pathways that support our evolving workforce.

Project-based learning is a hands-on and creative approach to teaching, which provides academic support to students in a way that is fun and engaging. Projects are interdisciplinary in nature, build on student interest and provide students with an opportunity to demonstrate what they have learned through the completion of the project. The youth apprenticeship experience is a method of engaging youth in work-based skill development training that assists them in identifying and pursuing professional and career choices. Within organizations who implement apprenticeship experiences for youth, apprenticeships are taught by professionals with real-world experiences in the apprenticeship field selected by the program. Each of these programs also include opportunities for students to participate in well-being support opportunities, including, but not limited to, health and well-being programming, and family and community engagement.

The Afterschool Care Program posted a new Statement of Need solicitation for Federal Fiscal Year 2022 to encourage new youth serving organizations the opportunity to partner with the Division and the Afterschool Care Program for a new funding cycle. In an effort to combat the lasting educational effects of the COVID-19 Pandemic, the Afterschool Care Program shifted the funding focus from Science, Technology, Engineering, Arts and/or Math (STEAM) to universal Academic Support. Academic support can include tutoring, mentoring, literacy programming, youth development programming, project-based learning, youth apprenticeships or any activities that complement and reinforce the educational needs of the participating youth. This adjustment allows community-based organizations the flexibility to create specialized out-of-school time programming that speaks directly to the needs of the youth and families in their community.

Funding Allocation and MOE

Since Federal Fiscal Year (FFY) 2006, the DFCS Afterschool Care Program has partnered with agencies by providing funding to serve youth during the out-of-school time. Through this partnership, the Afterschool Care Program has required each partnering agency to provide a match contribution to support programs and services provided to youth. This match is used to support the Georgia Department of Human Services (DHS) and Georgia Division of Family and Children Services' (DFCS) Maintenance of Effort (MOE).

From FFY 2006 to FFY 2021, the Afterschool Care Program funding supported programs and services that served over 25,000 youth annually through after school

and summer programs collectively (majority of youth are served through the Georgia Alliance of Boys and Girls Clubs) each year. As COVID – 19 descended upon our state during FFY 2020, funded Afterschool programs have remained committed to serving youth and their families by way of virtual engagement, socially distanced in-person programming and expanded social supports (food boxes, student check ins, etc.) that have all proven to be instrumental in navigating life during this pandemic. Each fiscal year, the DFCS Afterschool Care Program awards approximately \$15M was awarded to selected agencies with additional Maintenance of Effort (MOE) match support of approximately and \$35M or more each year.

In FFY 2021, the Afterschool Care Program partnered with 35 agencies to provide positive youth development services during the out-of-school time. As in previous programming years, the Georgia Alliance of Boys and Girls Clubs continues to serve the largest number of youth and providing the largest amount in match funding for the Department of Human Services and Georgia Division of Family and Children Services' MOE.

Partnerships and Collaborations

During FFY 2013, the Afterschool Care Program partnered with other state agencies to provide the first Afterschool and Youth Development (ASYD) Conference in Georgia. In FFY 2014, in partnership with the Governor's Office for Children and Families (GOFCF), Georgia Department of Education (GaDOE), and Georgia Department of Public Health (DPH), the Georgia Division of Family and Children Services provided the second statewide After School and Youth Development (ASYD) Conference. The conference was held in Augusta, Georgia and over 900 youth development workers, stakeholders and agency representatives attended. During the ASYD Conference, the Georgia Afterschool and Youth Development Quality Standards were launched to continue the effort of improving quality and support to youth development and out-of-school time programs within our communities in Georgia. The ASYD Conference was held again in FFY 2016, FFY 2018 and virtually in FFY 2021. An in-person ASYD Conference is scheduled for September 2022 in Athens, GA. Plans to connect in-person will be monitored and adjusted based on the state of the COVID-19 pandemic at that time. Each conference has the same emphasis of continuous quality improvement for out-of-school time programs. With the statewide partnership to provide the ASYD Conference and in initiating an effort to improve out-of-school time program quality through state after school quality standards, DHS, DFCS, GaDOE and DPH have continued their commitment in working to provide programs and services that do not duplicate efforts throughout the state of Georgia but complement and support the work of each agency while considering how initiatives, events, programs and services can be offered more streamlined and efficiently.

Future Goals and Program Impact

The Afterschool Care Program understands the importance of reducing the negative effects of COVID-19 on Georgia's youth and has made the necessary adjustments to support organizations in their efforts to meet youth at their level of educational need. The Afterschool Care Program also continues the support and implementation of the Afterschool and Youth Development (ASYD) Quality Standards usage statewide through all funded partners. Through a collective partnership with other state agencies, each funded program will have the opportunity to utilize the established ASYD Self-Assessment Tool to obtain baseline data of their program's quality and to create a plan of improvement to be implemented over the course of the contract year.

**E. The Number of Individuals Who
Received Diversionary Assistance in Order to
Prevent Their Requiring TANF Assistance
And the Categories and Cost of
Such Diversionary Assistance and
Job Acceptance and Retention Statistics**

Note: A diverted individual is defined as one who participates in Application Job Search and whose application for cash assistance is denied because the person either accepts a job or withdraws his or her application. No additional information is gathered on these individuals since they are no longer included in the TANF database.
