Outcome VI: Children in DFCS Custody Under the Age of 18 (March 2016 – March 2017)

The number of children in foster care under the age of 18 increased by 1.3%. The following slides reveal that there were 712 entries and 643 exits. On the last day of March 2017, there were 12,705 children in custody from this population. Of those who entered custody during the month, only 30 children (4%) of them had a prior episode within 12 months.

Outcome VI-A: Children in DFCS Custody Under the Age of 18 - (Regional) (March 2016 – March 2017)

The number of children in Foster Care under the age of 18 during March 2017 was 13,348. Visually, you can see that Region 14 has the highest proportion of children in custody at any point in time. During March, Region 14 had 1598 children in DFCS custody followed by Region 13 with 1357 and Region 1 with 1328. (for regional trends, see appendix).

Outcome VII: Comparison of Foster Care Entries and Exits (March 2016 – March 2017)

Multiple trends can be seen in this graph. Entries and exits increased in March. The ratio of entries to exits over the last 13 months is 1.1 which accounts for a slight increase in the end of month population trend from March 2016 to March 2017.

Outcome VII: Foster Care Re-Entries (March 2016 – March 2017)

Reentries into foster care improved during December 2016 followed by a spike revealing that the number of re-entries doubled. There was a decrease in the number of entries during November causing the re-entry rate to rise suddenly. Because the number of entries increased in January, the re-entry rate remained below the national standard. The re-entry rate and number of reentries for March 2017 was lower than it has been in 12 months.
