## Outcome V: Number of Children in Placement Services (State Fiscal Year 2017 To Date)

There were no significant increases in the number of placement services that were open during the month of January (18,018). The placement services includes continued collaboration with families after out of home care may have ended as well as those who are in out of home care with DFCS Age 0 - 21.

## Outcome VI: Children in DFCS Custody Under the Age of 18 (January 2016 – January 2017)

The number of children in foster care under the age of 18 remained constant during January with a slight increase at 13,104. The following slides reveal that there were 716 entries and 507 exits. On the last day of January 2017, there were 12,497 children in custody from this population. Of those who entered custody during the month, only 57 children (8%) of them had a prior episode within 12 months.

## Outcome VI-A: Children in DFCS Custody Under the Age of 18 - (Regional) (January 2016 – January 2017)

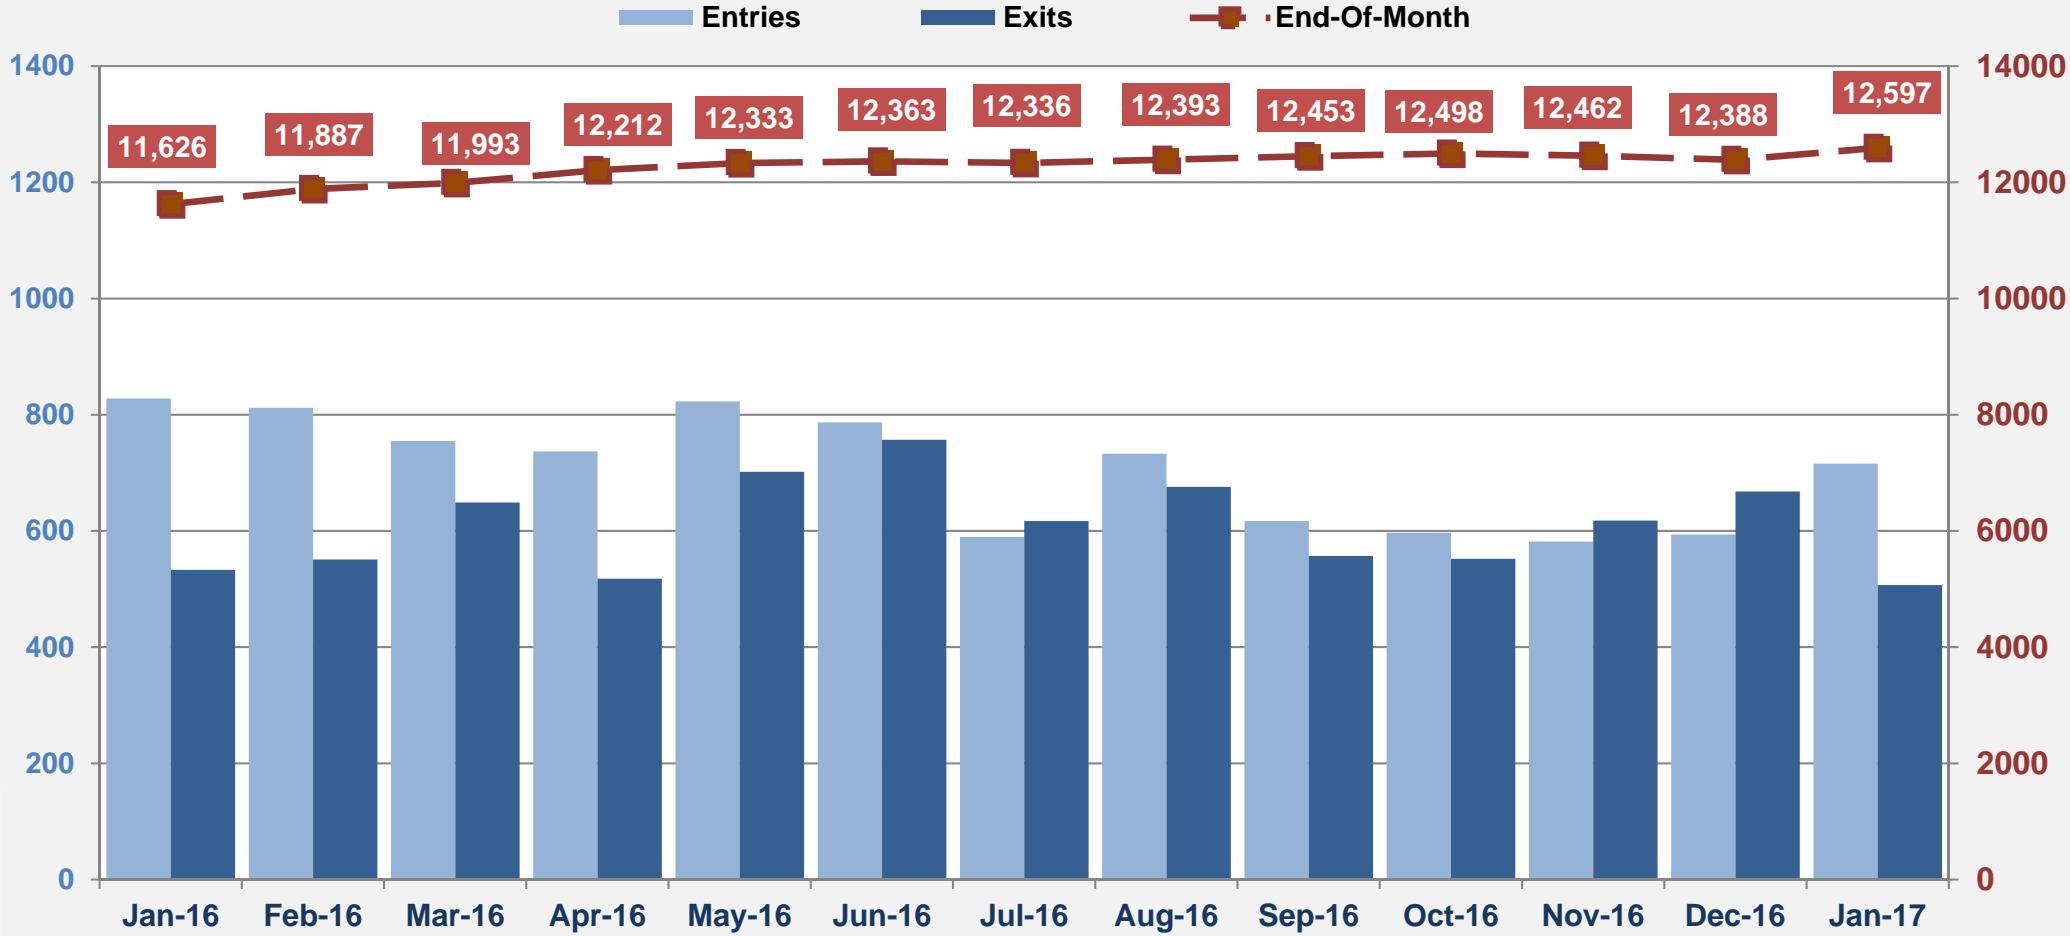

The number of children in Foster Care under the age of 18 remained constant during January was 13,104. Visually, you can see that Region 14 has the highest proportion of children in custody at any point in time.

## Outcome VII: Comparison of Foster Care Entries and Exits (January 2016 – January 2017)

Multiple trends can be seen in this graph. Entries increased in January while exits are decreased in January. The ratio of entries to exits is 1.4 which accounts for a slight increase in the end of month population. The end of month trend shows that the Foster Care population is slightly increasing during January 2017.

## Outcome VII: Foster Care Re-Entries (January 2016 – January 2017)

Reentries into foster care improved during December 2016 followed by a spike revealing that the number of re-entries doubled. There was a decrease in the number of entries during November causing the re-entry rate to rise suddenly. Because the number of entries increased in January, the rate remained below the national standard. The reentry rate for December was lower than it has been in 12 months.
