Outcome VI-A: Children in DFCS Custody Under the Age of 18 (Regional) (September 2016 – September 2017)

The number of children in Foster Care under the age of 18 during September 2017 was 13,656. Visually, you can see that Region 14 has the highest proportion of children in custody at any point in time. During September 2017, Region 14 had 1,563 children in DFCS custody followed by Region 13 with 1,382 children and Region 1 with 1,337 children. (for regional trends, see appendix).

Outcome VII: Comparison of Foster Care Entries and Exits (September 2016 – September 2017)

Multiple trends can be seen in this graph. There was a decrease in the number of entries and exits from August 2017 through September 2017. There was a net gain of 182 children who were removed from their homes versus those who were discharged from foster care which resulted in the overall population as of the last day of the month from August 2017 to September 2017.

Outcome VII: Foster Care Re-Entries (September 2016 – September 2017)

Reentries into foster care fluctuated throughout the year span with the highest number of reentries occurring in May 2017. During the last three months there was a decrease in the number of children reentering, although the rate increased during September due to the low number of entries that occurred during September 2017. The re-entry rate and number of reentries for September 2017 (5.6%) improved in actual counts compared to July 2017's counts. The number and proportion of re-entries to entries decreased during September 2017 compared to September 2016.
